Senate Rules Committee
OR

Dear Committee,

I live in Portland and pay taxes that support the whole state. I am happy to do this because I feel I have a voice, as does every resident of Oregon, in how the state is run. I'm not feeling that way about federal elections. Increasingly, big money contributions and gerrymandering have cut off the voice of the majority in favor of the few. Please support HB 2927 as is and send it directly to the Senate floor for consideration by elected representatives. We don't need another round of out of state financing for big ticket 'vote no' for something Oregonians support.

Sincerely,

Dr. Helen Henry
