Senate Rules Committee
OR

Dear Committee,

from Kathy Moyd, House District 36, Senate District 18.

I support HB 2927 (National Popular Vote)

It has become clear that the current Electoral College setup leads to very few voters being considered important and also can easily lead to a difference between the Electoral vote and the popular vote. The Electoral College was originally intended to be a deliberative body; now that its results are mandated by the states, it just adds an unnecessary complication to the process. This is a simple correction, not requiring a change to the Constitution or all states to agree on a change.

Sincerely,

Ms. Katherine Moyd
