Dear Representatives,

I am a long term resident of Portland, and I am writing to express my whole-hearted opposition to HB2007. This bill, written by and for developers, will neither solve the affordable housing problem nor promote social equity. In fact, it will be counter-productive. Especially onerous and devious is its opposition to historic districts. Abolishing historic districts will make Portland less affordable and less livable. I am disappointed by your support for this bill (one might even call it trumpian) and urge you to reconsider and adopting a wider and more salient position.

Cordially,

Jeffrey Levy
