HB 2007 – Not a Solution for
Increasing Affordable Housing

Architectural Heritage Center

visitahc.org

Directors of the non-profit Architectural Heritage Center believe that our central city neighborhoods, including historic districts, are vital components to making Portland the successful city it is today. HB 2007 as it stands

this only encourages demolitions, doesn't address affordable housing, and supports market rate housing that nobody can afford, except for silicon

valley transplants....

thx,
