

This is the only way that Oregon votes will count in future presidential elections. Why not refer to a statewide vote? Because millions of dollars will pour into the state to sway voters. Think what happened with measure 97 - those supporting it simply didn't have the resources to counter act that money. The same will certainly happen if a referendum on this issue is passed.

We need you, the Senate of the state of Oregon, to stand up for us. Please, make sure that Peter Courtney's Republican-like agenda doesn't prevent our votes from counting. We need you to do this for us. No more waffling.
