

Rules Committee,

Years ago I registered to vote as an Independent. I did not realize that it disenfranchised me from voting in the primaries. I feel this is not right and I should be able to vote for whomever I wanted to regardless of party affiliation. In effect, my vote did not count. There are too many ways we are losing our democracy. I am not electing an elector, I am electing a person. I want a national popular vote so all our votes count. It's time to get rid of the electoral college as well.
