

Rules Committee,

The GOP and their corrupt allies have jerry-rigged, read gerrymandered elections and rigged votes, blocked votes, denied votes, miscounted and otherwise stifled the popular will of the American people because they - the GOP - cannot win a fair election. The GOP has not won a fair presidential election since Eisenhower - always dirty tricks, flim-flam, sleight of hand and now Trump's non-stop Lie-Machine and Theft Engine. Get the crooks and their corrupt minions and shenanigans out of our elections. Pass HB2927 this year with no amendments and no ballot referral. Shape up and do your jobs for a change and not your master's bidding.
