No amendment.

BACKGROUND:

ORS 307.130 is a relatively broad exemption available to various types of nonprofit institutions including: hospitals and health organizations, social welfare organizations, museums and specified charitable retail stores. For a retail store to be exempt from property taxation under existing law, statute requires the proceeds of the sale of any inventory sold to the general public to be used to support a welfare program. Welfare program is defined as "a program to provide food, shelter, clothing or health care, including dental service, to needy person without charge". Retail stores may also be exempt if proceeds of the retail store sales are used to support a not-for-profit housing program. Retail stores selling inventory, at least 90 percent of which is museum-related, within the museum buildings or on museum grounds is also exempt.

House bill 3459 as engrossed would expand the ORS 307.130 property tax exemption to include retail stores that operate with substantial support from volunteers and that donate all net proceeds of the retail store to one or more of the following:

- A nonprofit corporation that provides animal rescue services
- A manufacturer or provider of goods or services in return for equivalent value of goods or services from the manufacturer or provider
- To an entity that provides spaying and neutering services for pets of individuals residing in households with an annual household income at or below 80 percent of the area median income
- For the purpose of aiding domesticated animals, regardless of whether the animals are in the custody of the county shelter, in furtherance of the purpose for which the nonprofit corporation was organized.
