

Rules Committee,

Greetings Legislators and thank you for your service!

I write today to implore you to support legislation to use the national popular vote in Presidential elections from now on. The Electoral College is now an arcane artifact of a time when timely vote submission and subsequent counting was not possible. I am an Oregonian who wants this changed. Please remove the barriers from counting the popular vote! No matter who wins, I am confident I will feel more secure and truly represented if the election is via Popular Vote.

Sincerely,

Sue Ann Higgins
