

Rules Committee,

Congressmen,

I live in Oregon, a small state that rarely gets noticed in national elections. I find it disconcerting that all presidential candidates pick the issues that the "swing states" care about, they campaign there, and our issues are left out. It seems that a small number of people really get heard. I want to be part of our democracy. Please put this bill to the test. The president is to serve us all, not just those states where the electorate is evenly divided. Winner take all is not the right spirit for a democracy.

Sincerely,

Judy Riggs
