

Dir Sirs & Madams,

It is very important that you pass HB 2927 dealing with the National Popular Vote. The majority of voters in Oregon support this change to our system. I oppose the premise that the legislature should refer the method of choosing presidential electors to the public in a vote (SB 825). It is your job to make that decision, and you have ample testimony as to why HB 2927 should be implemented.

Please bring the bill to a vote and represent the majority of your constituents who are counting on you.

Thank you,

Linda Harding
Dallas, Oregon
