

Rules Committee,

Information collect from websites, other online services show practices of irresponsibility. Collectively showing actions that demonstrate a lack of accountability. All with ties to Corporations working to take money from our every hard earned dollar in our pockets.

The Electoral College has outlasted its usefulness. It is part of the constitution, written when communication was by pony express. Voters currently living and voting in a "red" or "blue" state are disenfranchised, because their vote doesn't matter. Eliminating the electoral college means: no "swing" states getting all the attention and all the campaign stops and all the empty campaign promises. The electoral members are selected by the two main political parties, Republican and Democrat, disenfranchising all other voters, independent, Libertarian, etc. End it now. It will also end gerrymandering. "Amend the constitution to abolish the Electoral College. Hold presidential elections based on popular vote. One person one vote to determine the one leader who is supposed to answer to all the people of the country." Clean out congress starting in 2018. Get out and vote !

PLEASE.....
