

Dear members of the Committee,  
I have horses and live in a rural area due to that fact.  
This bill is very very harmful to farm land. We need to preserve  
any farm land we have left.

This is bad public policy.

I wrote against these bills when they were referred to your  
committee, but evidently those are not allowed to be posted  
since a hearing was never scheduled. I guess it's a lobbyists'  
world.
