

Senators,

I have been a consistent voter for over 50 years and increasingly upset by rarely having my vote for POTUS be counted due to the Electoral College. It is an outdated institution which doesn't fit the modern world, in which all other elections are placed in the trust of the popular vote. The fact that Oregon has a chance to join the National Popular Vote Initiative is exciting and overdue. HB2927 needs your support but **WITHOUT REFERRAL**. Such a move is unnecessary, risky and expensive. It is your job, as our elected (by popular vote) officials to decide the matter of whether Oregon has a chance to join the 21st century or not. Please don't let my future votes for the POTUS be overruled by those of a few swing states. It is time for ONE PERSON, ONE VOTE! Thank you.
