Senate Rules Committee
OR

Dear Committee,

it's time for America to elect our president the same way as we do everyone else from the first time we vote for a student body president in grade school to national Senators and Congressional Representatives.

Enough of party over country and "RICHIE RICH" and corporations buying off the crooks that are in our Congress and Senate now through unlimited campaign donations. I'm tired of feeling like my Oregon vote and most of the Western States votes not counting. All Americans deserve their votes to count just like the East and Mid West who control our elections through the Electoral College. There are too many millions of voters feeling like their vote doesn't count. GIVE US BACK THE POWER TO THE PEOPLE AND MORE OF US WILL VOTE

Sincerely,

Mr. Dennis West
