

Rules Committee,

I am so glad you are addressing this vital issue! I've been researching this since the November election, and what I learned is that a large majority of Oregonians have approved of this legislation and have done so for over seven years. This makes me proud, as electing a president by National Popular Vote is a constitutional right. I'm not surprised Oregonians want to make sure that every voter's voice is heard.

You have the power to make that happen. I urge you to pass HB2927 this year, without any amendments and with no ballot referral. Thank you for doing what I would do if I were in your place. Thank you for speaking for me.
