Subject: Do away with the Electoral College
Date: Thursday, June 22, 2017 8:28:47 AM

Rules Committee,

There is literally no reason why we should be using the Electoral College system in the modern era.

One person should get one vote to democratically decide the direction that our nation takes, even if the math would make my personal vote count for less than it does now with the current system.

Please pass HB2927 with no amendments or ballot referrals!
