Rules Committee,

The Electoral Vote system is outdated and can be manipulated by candidates / political party's throwing money to the states with most electoral votes ----- this method NO longer represents a 'government of the people, by the people.'

With lunatic Trump as #45 - this does not represent the popular vote --- meaning the vote of an individual does NOT count. Instead it represents manipulation and big money.

It is very challenging intellectually and emotionally to accept a president who did not 'win' the American vote by 2.7-3.0 million.

Do you remember Trump saying if Hillary won that the system was rigged? Followed by if he won, it wasn't rigged?

Welllet's do away with a rigged system and just focus on popular vote and ensuring that our voting machines are air tight and unable to be tampered with by ANYONE - big money, Russians or anyone.

Thank you for considering this American's opinion.

Sincerely,
Janet Barber
