Rules Committee,

As a person who has lived in Oregon for 35 years, I have always been proud of Oregon's strong record on protecting the environment, enhancing Oregonians access to voting, and Oregon's record on electing progressive political leaders. The results of the 2016 election have brought shame and incompetence to the institutions of the federal government that have protected those things that Oregonians hold dear. Electing the president by national popular vote would mean issues that matter to Oregon would be discussed during presidential campaigns.

It's time for America to equalize the vote and make sure every voter's voice is heard.

Pass HB2927 this year with no amendments and no ballot referral.
