Rules Committee,

Greetings fellow Oregonian.

It is high time to stop using the electoral college system and we can start right here. I want our candidates to feel that they are not just looking for them here but looking for real popular support and thus they visit our state and campaign here. I'm so very, very tired of winning the popular vote and then loosing to the electoral vote. While were at it lets dump gerrymandering - completely. No more. OUR government isn't responsive to us, the people when the vote is nothing but a formality, like if mom says it's OK then it doesn't matter what dad says. Apt metaphor? close enough.

Pass HB2927 today!

Thank you!
