Rules Committee,

I am writing to urge that you support HB2927 this year with no amendments and no ballot referral. Now is the time to finally allow each registered voter to have their vote counted regardless of the state in which they reside.

Oregon voters want the president to be elected by National Popular Vote.

Electing the president by national popular vote would mean issues that matter to Oregon would be discussed during presidential campaigns.

Electing the president by National Popular Vote is a constitutional right.

It's time for America to equalize the vote and make sure every voters voice is heard.
