Rules Committee,

Dear Legislators,

Honoring the will of the voters is the ultimate democratic principle. Electing the President of the U.S. by National Popular Vote guarantees the voters' voices are heard and prevents an antiquated system from misdirecting election outcomes. The Constitution assigns awarding electoral votes to state legislatures so you, as legislators, are empowered by the Constitution to align truth in elections with outcomes, by passing HB 2927 without amendments or ballot referral. Please make sure every voter's voice is heard. Pass HB 2927.

Thank you.
