Rules Committee,

To: Senate Rules Committee

Good morning. I have been made aware that the Senate Rules Committee is conducting a hearing on HB 2927 this afternoon. I urge the Committee to do everything in their power to pass HB 2927 this year. Since the year 2000, we and many other parts of the world have suffered twice under the policies and war mongering of Presidents brought into office against the wishes of a majority of the nation's people. This is not democratic and the electoral college must be abolished. Pass HB2927 this year and let's get Oregon into the National Popular Vote Interstate Compact!
