

Rules Committee,

Please vote yea on HB2927. As an American and an Oregonian, I am tired of feeling like my vote doesn't count. I felt like my vote didn't count and the election was stolen in the 2000 presidential election, when the candidate who received a half-million fewer votes than his opponent became the President. I felt that way all the more when I saw an another presidential election go to the opposition candidate in 2016 , even though the winner received 3 million fewer votes than the loser. Clearly, gerrymandering is rendering the voting choices of the majority of the American people moot. Please vote yea on HB2927, and help the American people have their votes count.
