

Rules Committee,

Please pass HB2927 so that presidents are elected by National Popular Vote.

It is a shame, to have the current unqualified president in office, when he did not earn the most votes. The damage he is doing to our country may be irreversible, and is certainly setting our country back by decades. Many voted for him as a sign of protest, vs. truly thinking he could win and create his self-serving policies, that just line his own pocket and those of his family.

It is our RIGHT to elect a president and it should not be gerrymandered by the current system.

Thank you! Brooke
