

Rules Committee,

I am a Benton County resident. It should be obvious to everyone that currently the national popular vote does not elect POTUS. The electoral college does. Since SCOTUS passed US vs FEC, our national elections have gone to the highest bidder and the GOP has been gerrymandering like crazy to keep it that way. If you want our democracy to survive this money onslaught, we need to give some power back to the voter regardless of party affiliation. Electing POTUS by national popular vote is a start in right direction. Please support Oregon's part in this process. Bruce Bartlett, 28273 Tampico rd, corvallis, OR. I support HB2927.
