

Rules Committee,

members of our Senate:

I've always felt the Presidential voting should be by the citizenry. The Electoral College is antedated, and doesn't allow for the people to elect the President. This will eliminate the gaming of the system that the Electoral College allows.

Just think how our country would have been better off if GW Bush hadn't been elected by the Electoral College; rather Mr Gore would have been elected by the people ! We wouldn't have been in this Middle East mess !! nor would we have had the economy meltdown of 2008 because the CFTC would have been overseeing Wall St after the destruction of Glass-Steagal !!

Sincerely, a concerned citizen,
james lonergan
