

Rules Committee,

As an Oregon property owner I urge you to pass HB2927 with no amendments and no ballot referral.

Electing the president by national popular vote would mean issues that matter to Oregon would be discussed during presidential campaigns. Oregon voters want the president to be elected by National Popular Vote.

Electing the president by National Popular Vote is a constitutional right and I feel would help "unite" the country. The Electoral College "divides" the country.

It's time for America to equalize the vote and make sure every voters voice is heard.

Thank you.

Roger Robinson
