

Rules Committee,

I follow the work you are doing in this legislative session and want to urge you to help pass HB2927 without amendments, without referring it to a vote of the people. Oregon voters want to elect the president by Popular National Vote which would mean their votes count towards the election of the president rather than having the electoral college vote determine the outcome.

The electoral votes are to be awarded by the state legislature. Empower the people as the constitution directs.

Randall Koch, Neskowin
