

Rules Committee,

I am a voter in Portland, OR (97214). The U.S. Constitution instructs the individual states to select Electors as determined by state legislation. The current "winner-take-all" allocation has repeatedly failed to select the most popular candidate. The electoral collage is a legacy of a pre-literate society. The electoral collage was designed for flexibility and now is the time for modernization. The President should be selected democratically based on the National popular vote totals.

Pass HB2927 this year with no amendments and no ballot referral.

-David Aschkenasy, Portland, OR
