

Rules Committee,

I strongly support HB2927--without amendments and NO ballot referral. I believe that joining the National Popular Vote Compact would mean that Oregon would matter to national politics. Oregon currently has two roles: Being taken for granted and that as an ATM machine. HB2927 ends those dual roles. Candidates would come to us asking for our support. Our issues would be heard. HB2927 does NOT need ballot referral--You were elected to make decisions, so please do it. Thank you.
