

Rules Committee,

Dear Madam or Sir,

Please pass HB2927 with no amendments and no ballot referral. It is time, high time, for the president to be elected by National Popular Vote; indeed, it is a constitutional right. As it is, gerrymandering and other political manipulations are determining who holds this critically important office.

Please help us make every voter's voice heard, respected, and honored.

The rest is politics in the worst sense of the word.

Thank you for your time, your attention, and your devotion to the best interests of the public whom you represent.

I know that you do this important work with a sense of purpose and mission. The times are dire and require great courage. I know that you will do the right thing, and I thank you in advance for all that you do.

With best wishes and great hope,

Anne-Marie Oliver
