

Rules Committee,

What is the point of my popular vote if a fearful electoral college fails to do its job and instead gives the country a defective like trump? It will take decades for this country to wake up from this nightmare. If leaders of a developing democracy suggested creating a body that was responsible for the people's final vote, its citizenry would riot in the streets! I am Black. Black citizens have died for the right to vote. I don't want to waste mine. Pass HB2927 this year with no amendments and no ballot referral.
