

Rules Committee,

I am writing to urge passage of HB2927 with no amendments and no ballot referral.

This measure is not a partisan issue and is supported by a large majority of Oregonians.

It is long past time that our nation's outdated system of counting Presidential ballots be updated so that every citizen's vote is meaningful!

This is not a complicated matter and I am calling for our representatives to pass this bill without further delay.

I want my vote and every citizens vote to be counted equally.

Thank you for your action on this urgent matter.

Sincerely,

George E. Bush

Albany, Oregon
