

Rules Committee,

I had just heard of the National Popular Vote Interstate Compact after the 2016 election results. Great idea! I immediately searched to see if Oregon was committed to this fair and just concept. To my surprise, we had not! Oregon's citizen's voices are marginalized by the Electoral college process and our state voting so late in the primary. Nothing feels worse as a voter. Give Oregonians a voice! Pass HB2927 NOW!
