

Rules Committee,

Throw out the dictator in the White House along with VP, Bannon, Ryan his Regime now! After all the dictator in the White House has a best friend his name is Putin. With the help of Putin and his hackers the election was hacked in 2016. The dictator in the White House didn't win the election by popular vote! That's wrong on so many levels! In my lifetime I have never felt like I was an enemy in my own country as I do now! We have a dictatorship as well as a Regime in the White House! I don't recognize my country anymore! Behind closed doors secrets and are being told by the worthless dictator in the White House as well as his Regime! They are a danger to us as well as the whole wrong! Remember 1933? Don't turn a blind eye to this dictator and his Regime! They will drag us into World War III to cover up the Russian connection! Follow the money to Putin to the dictator in the White as well as his Regime! There's isn't a president in the White House! I refuse to live under a dictatorship and a Regime! Remember this dictators faces and names change however the agenda remains the same! Control the people control the media and show by force! Along with the blind leading the blind the followers of the dictator along with the Regime! This I'm seeing daily ever since the 20th of January 2017. I also saw this in the autumn of 2016! Throw them out now! Not this 2018 date either now! Now! Before it's too late! What's next? Who's next? The world ignored Hitler and his Regime and look what happened! Oh, remember Hitler didn't start killing off people on the beginning! However, he did when he took control! Throw the dictator out of the White House along with his Regime VP, Bannon, Ryan as well as the rest of his cabinet cronies now!
