Subject: HB 2310-A – Relating to the provision of public health services
Work Session Recommendations

HB 2310 modifies and clarifies requirements established in HB 3100 (2015) for modernizing the state's public health system. The bill modifies the timeline and process for submitting local public health implementation plans, and clarifies formula distribution language. It also clarifies how and when a county could relinquish their local public health authority to the state.

The measure and the original staff measure summary are available on the Oregon Legislative Information System (OLIS). A fiscal impact statement related to the -A5 amendment, as well as a preliminary staff measure summary is posted in Meeting Materials.

The measure previously had hearings in the House Committee on Health Care on 4/7/17 and 4/17/17.

The -A5 amendment removes requirements for implementation of specific parts of statute, thus eliminating a direct fiscal impact. However, it is anticipated that some funding will be included in the end-of-session budget bill to begin implementing this program. The amendment also removes the section authorizing OHA to establish fees related to data requests.
