

30 June, 2017

To The Honorable People of this Committee,
I respectfully Ask that SB 229 A Be Not Sent
to the floor. The Amendments Attached to this bill is
a vile Attempt to undermine the Diligence of
the Secretary of State, who was granted powers of Naming
titles to a referendum put forward by We, The People. To do
this is to discourage & Make it harder for any
referendums to petition the electorate to get ballots
on various issues that we, the people may want to
say on. I thought this Capitol is to have honor &
transparency, but yet this is a bill that handcuffs & make
it ~~very~~ very hard for a common person to use the petition
process to add or change laws on the State Constitution unless
you have infinite money. A lot of the referendums are done
by Economically Independent Volunteers. I see that possibility
that this body wants to take this power from the Secretary
of State & put this power to ~~the~~ ^{this} legislature. To
perceive nor disrespect We, the People's right to
petition is pridefully Arrogant & is perceived to be
 catering to special interests will, not the whole of the
people. Should had a PUBLIC HEARING!

Thank You: Bernice W. Jamieson
