

HB 2355

Relating to public safety

HB 2355 requires the Criminal Justice Commission to develop and implement a standardized method for law enforcement officers to use to collect and record traffic stop data. CJC is to provide a report on the data by December 1, 2019. The measure provides CJC with \$347,351 General Fund for two permanent full-time positions to work on the data and analysis.

The measure provides the Department of Public Safety Standards and Training with \$431,330 Other Funds expenditure limitation for two permanent full-time positions to develop and provide training procedures and to begin preliminary work on an education program to reduce profiling.

The measure provides the Department of State Police with \$780,418 General Fund for three limited duration positions to work on developing and implementing a data collection system. This statewide data collection system is still in the preliminary phase, and actual costs of the system have not been determined. The Department of Transportation has \$750,000 of federal National Highway Traffic Safety Administration traffic records grant funds that may be used to pay for the statewide citation tracking system. The measure provides State Police with Other Funds expenditure limitation in the amount of \$750,000 to use these ODOT funds for the project.

The Public Safety Subcommittee recommends HB 2355 be amended by the –A18 amendment and be reported out do pass, as amended.
