

I strongly support the National Popular Vote HB 2927 with no referral to voters! I feel that sending NPV to the voters is the cowardly way of opposing the NPV.

The opposition will vastly outspend the proponents to defeat the NPV. I urge senators to take responsibility to represent the people and not to run for cover by passing the buck.

If a senator opposes, he/she should be transparent about their position.

I support the NPV HB 2927 and would like to see it passed in the Oregon state senate.

Thank you!
