

Rules Committee,

Other than reversing the horrible dishonor that so-called "Citizens United" has thrust upon America, this is probably the most important REAL change that needs to be made to n this country.

The political system in America is broken! Maybe net buys your way to freedom in the Judicial system!

We, the working class and middle class, need to have a chance at a degree of fairness and opportunity.

Our country is in the hands of corporate attorneys, they're all WAY overpaid, and we need your help to end this bullshit way of living.

Thank you.
