Subject: Using Oregon's popular vote to determine election outcomes
Date: Thursday, June 22, 2017 8:28:53 AM

Rules Committee,

Using electoral college results to determine election results is not appropriate, the most recent election is proof. The electoral college has outlived its usefulness. With 3 million voters voting for the popular candidate versus the electoral college Choice The results have gotten out of balance. Please join Oregon with the popular vote mandate. Our planet cannot afford this. Thank you for your time and efforts.
