

Transportation System Role in Economic Development

House Committee on Economic Development & Trade

Travis Brouwer, ODOT Assistant Director

February 1, 2017

A well
functioning
transportation
system is vital
to a
competitive
economy

Transportation Funding

Current funding is insufficient. By 2036,

1/3

of Oregon's
2736 state
highway
bridges will be
in poor
condition

418

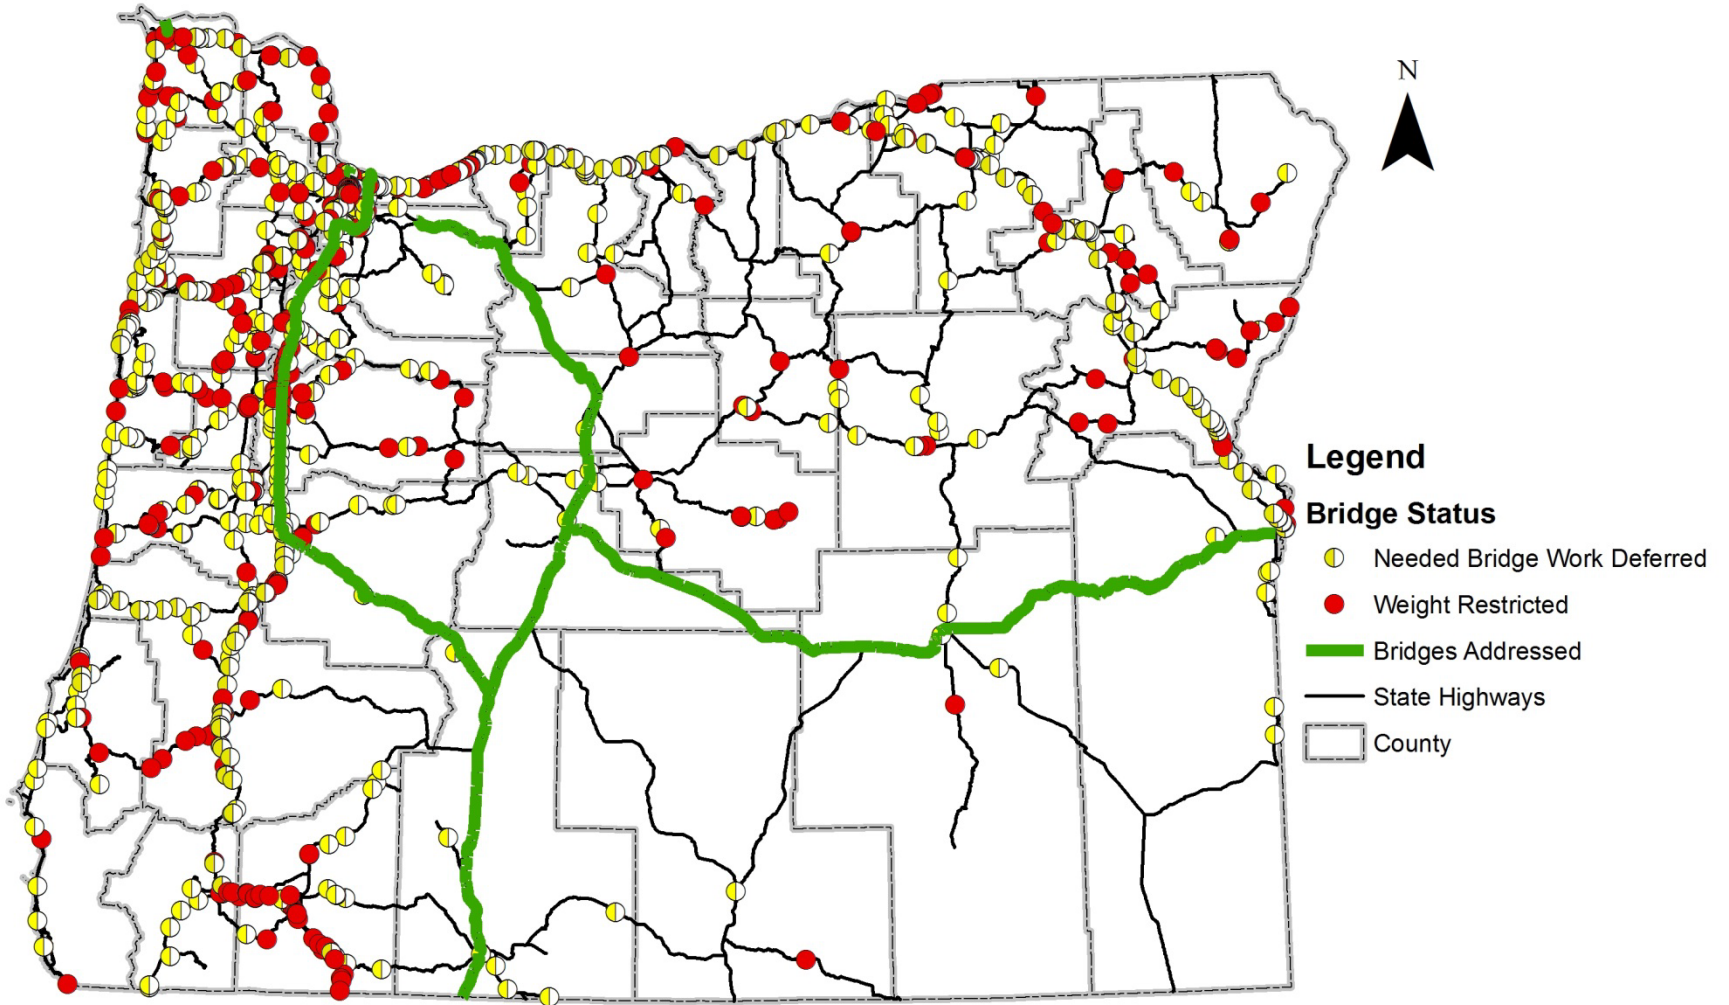

bridges are
expected to
be weight
limited to
heavy trucks

47%

of the state
highway
system's
pavement will
be in poor
condition

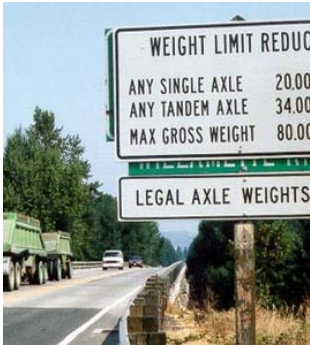

Current bridge funding

Preliminary Economic Impacts

Higher freight shipping costs

Fewer jobs in future

Lower gross state product

Higher vehicle operating costs
