Subject: OPPOSITION TO SENATE BILL 3

Honorable Senators

I am a prospector and gold miner in Oregon. I oppose Senate Bill 3. SB3 further removes our rights to access minerals in the state of Oregon by extending the dredging moratorium. This will result in financial loss as well to thousands of miners in Oregon and further erodes our rights to access public lands. The continuous attack on our Mineral Estate Grant must stop. There is NO proven facts that the previous "rules and regulations" under permit were not sufficient "regulation".

Thank you for considering the negative effects of SB3, as well as SB837 and stand for the rights of Oregonians to enjoy THEIR lands!

Respectfully,

Michael Rech
