SB3 hearing 2-6-17

Just heard about this. What the hell is going on. Every time I turn around someone is tiring to take my life from me. My life is gold dredging. My income is very low in the summer months so I go dredging. Last couple of years the regulations were so bad I couldn't work the dredge and someone wants to make it worse. Every stream in the west should be open to dredging for gold. Let us spread out and make some money.

I hope President Trump will kick ass on this kind of crap.
