

Oregon Future Business Leaders of America

Oregon Future Business Leaders of America is the premier organization for students with career interests in business, leadership, and entrepreneurship. Serving over 2,500 students in over 60 of Oregon's High Schools, Oregon FBLA has been offering leadership training, hands-on experiences, and competitions since 1949.

Adviser Training

Oregon FBLA offers training each year to classroom teachers who serve as FBLA Advisers to prepare them for classroom integration, provide them with training tools, facilitate the growth of business and industry partnerships, and to provide hands-on leadership experiences.

Oregon Leadership Institute

Each fall, Oregon FBLA offers the Oregon Leadership Institute – this event provides students leadership training in entrepreneurship, management, interviewing, and more, along with soft skills including speaking, etiquette, and professional dress. This two-day must-attend experience is among the leadership highlights for the organization.

State Business Leadership Conference

In April, students come together for the capstone experience with top-level trainings, interactions with industry partners, and competition in over 70 areas of business and entrepreneurship leadership. The top-performers at this conference advance to the National Leadership Conference.

State Officer Experience

Nine students are elected annually to serve as the student leadership for the organization. These students have larger and more enhanced experiences and training – including understanding and working with different personalities, leading diverse teams, presenting to their peers and industry leaders, maximizing the use of social media, goal setting and project management, and more. Students who serve as state officers receive 2 college credits from our partner Concordia University who recognizes that the experience is at or above college level work.
