Dear Representative Clem and members of the committee, I am writing to urge you to support HB 2038 to preserve or expand Oregon Farm to School Garden Program. This program makes a difference in a child life. As a farmer I have seen the changes in the students excitement around food. They are learning nutrition, gain a connection to where their food comes from and choose to eat vegetables. Many children don't get the opportunity to experience this and it is a very important opportunity to continue and expand this program. It does make a positive change for our future.

Thank you for your time,
Jabrila Via
