---

Honored Chairman and committee members:

I am writing out of concern regarding the unleaded avgas bill, SB115.

I urge you to vote against the premature passage of this legislation until there is a supply of unleaded avgas available to General Aviation pilots. I am a GA pilot and am in agreement that an alternative to leaded fuel is desirable and environmentally prudent but since there is not a reliable source of unleaded avgas available I urge you to vote no at this time.

Thank you.

Sincerely,

Daniel O'Leary
