#### **BACKGROUND:**

Oregon law requires background checks to be conducted on workers at long term care facilities, residential facilities, and certain adult foster homes regulated by the Department of Human Services (DHS). DHS is also required to maintain a regularly updated registry of all current and potential care workers. According to DHS, inclusion on the registry streamlines the hiring process for care workers by reducing the cost and time necessary to perform required background checks for new hires and internal job changes. Current law excludes developmental disability and mental health adult foster homes from inclusion in the registry.

Senate Bill 104 includes adult foster homes providing care to developmentally disabled persons and mentally disabled persons in the DHS background check registry.
