

I support House resolution 10. As a psychologist who brought to light OBPE improprieties to a house subcommittee over twenty years ago, then played an integral part in having a bill passed into law which forced OBPE to tape their orals to stop some of their actions preventing out of state psychologists to move to Oregon I faced years of retaliation. For the second time in my career I am facing OBPE in the state court of appeals (I prevailed in 2004) and currently have filed a bar complaint against the board examiner Karen Berry which is being reviewed at this time. I would be willing to testify at length and provide substantial evidence of this boards harassment including unethical and illegal behavior that has impacted my twenty years of practice in this stat, costing me tens of thousands of dollars and ultimately my career.

This does not address the enduring harm that OBPE visited upon my clients by breaching their confidentiality and depriving adopted children who were seeing me due to multiple traumatic losses of even a good-bye session. Their demand that I only refer to Oregon psychologists (versus any other mental health professional who specialized in their issues) despite the fact that many of my clients were from out of state and then demanding the names of the psychologists that I referred to so they could continue to breach confidentiality put me and my clients in an untenable position.

Please ensure that all in Oregon are held accountable for their actions, regardless of who their employer is. Feel free to contact me if I can provide further specifics.
